REQUESTOR'S POSITION SUMMARY

Requestor's Position Summary Dated June 13, 2005: "Carrier did not pay claim per TWCC Stop-Loss. Hospital is requesting we be reimbursed at usual & customary."

Requestor's Position Summary Dated July 18, 2005: "Enclosed are copies of EOB's from other carrier's which show a higher rate of reimbursement, consistent to our usual and customary. We are requesting that Liberty Insurance pay our claims at the usual and customary."

Requestor's Supplemental Position Summary Dated March 28, 2013: "1. The Audited charges of \$42,722.27 for [Claimant's] hospital inpatient admission exceeds the \$40,000 stop-loss threshold. 2. The services rendered to [Claimant] were unusually costly and extensive...because:

- [Claimant] underwent multiples surgeries.
- [Claimant] experienced postoperative complications. [Claimant] was diagnosed with bilateral pneumonia...additionally, [Claimants] had a fever for four days of this admission which spiked several time to 101.5 degrees.
- The length of stay was outside of the ordinary. When compared to the results of a statistical survey of system-wide data maintained by the Division for hospital inpatient admissions in Texas, [Claimant's] eight (8) day hospital stay... was outside of the ordinary because it was longer than most others and exceeded system norms... The average length of stay for hospital inpatient admissions system-wide in the State of Texas in 2005 was four (4) days. The average length of stay for 2005 admissions with Principle Diagnosis Code (724.5) and Principle Procedure Code (03.93) was one (1) day. [Claimant's] hospital stay was outside of the ordinary (unusual) because the length of stay, eight (8) days, exceeded the average length of stay for inpatient admissions system-wide in the State of Texas.
- The costs were front-loaded. The cost associated with the hospital's services in this case are front loaded-i.e. the injured employee underwent complicated surgical procedures requiring an investment in skilled professionals and advanced facilities and medical equipment... For these reasons, the Medical Fee Dispute Officer should find that the second-prong of the two part test is satisfied and order additional reimbursement be paid by the carrier according to the stop-loss calculation methodology."

Amount in Dispute: \$34,896.27

RESPONDENT'S POSITION SUMMARY

Respondent's Position Summary Dated June 27, 2005: "Total billed chgs-42,722.27...total pd. 7826.00."

Response Submitted by: Liberty Mutual Insurance Co.

Respondent's Supplemental Position Summary Dated March 29, 2013:

I. "Summary:

Requestor has failed to meet the Austin Third Court of Appeals' mandate that, to qualify for reimbursement under the Stop-loss Exception...a hospital must demonstrate two things: the services it provided during the admission were unusually costly and unusually extensive, and its total audited charges exceeded \$40,000.

II. Requestor's System-Wide Averages Report Is Not Evidence of Either the Cost or the Nature of its Services.

Requestor places great weight upon the results of a system-wide statistical survey of Texas workers' compensation inpatient admissions. Such weight is misplaced. The accuracy of the data cannot be verified; the EDI submission upon which the data is based often contain inaccurate information. The data does not account for those services which were appealed to MDR at a later date and for which additional payment was ordered. The data does not account for those cases which were appealed to MDR and still reside there, awaiting a decision. The data does not account for contracts...It does not account for compensability issues or extent of injury disputes...coding errors, billing errors, payment errors...Requestor conflates charge for the service with the cost and nature of the service, but these concepts are vastly dissimilar."

III. The Services Were Not Unusually Extensive.

In short: the procedure was routine and entirely without incident.

IV. The Services Were Not Unusually Costly.

Requestor invites the Division to view its inflated charges as innately indicative of the complexity and cost of the underlying service, effectively reducing the Stop-Loss Exception to a charge-based system whereby the amount of the bill determines the amount the hospital is due. The Division, in the preamble to the Acute Care Inpatient Hospital Fee Guideline, explicitly rejected this argument. Noting that hospitals determine their own charges, and stressing those charges cannot be verified as a valid indicator of their costs...Because Requestor has not met its burden of demonstrating unusually extensive services, and the documentation adduced thus far fails to provide any rationale for the Requestor's qualification for payment under the Stop-Loss Exception, Respondent appropriately issued payment. No additional monies are due the Requestor."

Response Submitted by: Hanna & Plaut LLP

SUMMARY OF FINDINGS

Disputed Dates	Disputed Services	Amount In Dispute	Amount Due
January 18, 2005 through January 25, 2005	Inpatient Hospital Services	\$34,896.27	\$0.00

FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and all applicable, adopted rules of the Texas Department of Insurance, Division of Workers' Compensation.

Background

1. 28 Texas Administrative Code §133.305 and §133.307, 27 *Texas Register* 12282, applicable to requests filed on or after January 1, 2003, sets out the procedures for resolving medical fee disputes.
2. 28 Texas Administrative Code §134.401, 22 *Texas Register* 6264, effective August 1, 1997, sets out the fee guidelines for inpatient services rendered in an acute care hospital.
3. 28 Texas Administrative Code §134.1, 27 *Texas Register* 4047, effective May 16, 2002, sets out the guidelines for a fair and reasonable amount of reimbursement in the absence of a contract or an applicable division fee guideline.

The services in dispute were reduced/denied by the respondent with the following reason codes:

Explanation of Benefits

- F-Fee guideline MAR reduction.
- M-No MAR.
- Z585-The charge for this procedure exceeds fair and reasonable.
- Z695-The charges for this hospitalization have been reduced based on the fee schedule allowance.
- X394-Our position remains the same; if you disagree with our decision please contact the TWCC medical dispute resolution.

U.S. Bankruptcy Judge Michael Lynn issued a "STIPULATION AND ORDER GRANTING RELIEF FROM AUTOMATIC STAY TO PERMIT CONTINUANCE AND ADJUDICATION OF DISPUTED WORKERS COMPENSATION CLAIMS BEFORE THE TEXAS STATE OFFICE OF ADMINISTRATIVE HEARINGS," dated August 27, 2010, in the case of *In re: Renaissance Hospital – Grand Prairie, Inc. d/b/a/ Renaissance Hospital – Grand Prairie, et al.*, in the United States Bankruptcy Court for the Northern District of Texas, Fort Worth Division in Case No. 08-43775-7. The order lifted the automatic stay to allow continuance of the claim adjudication process as to the workers' compensation receivables before SOAH, effective October 1, 2010. The order specified John Dee Spicer as the Chapter 7 trustee of the debtor's estate. By letter dated October 5, 2010, Mr. Spicer provided express written authorization for Cass Burton of the law office of Burton & Hyde, PLLC, PO Box 684749, Austin, Texas 78768-4749, to be the point of contact on Mr. Spicer's behalf relating to matters between and among the debtors and the Division concerning medical fee disputes. The Division will utilize this address in all communications with the requestor regarding this medical fee dispute.

Issues

1. Did the audited charges exceed \$40,000.00?
2. Did the admission in dispute involve unusually extensive services?
3. Did the admission in dispute involve unusually costly services?
4. Is the requestor entitled to additional reimbursement?

Findings

This dispute relates to inpatient surgical services provided in a hospital setting with reimbursement subject to the provisions of Division rule at 28 Texas Administrative Code §134.401, titled *Acute Care Inpatient Hospital Fee Guideline*, effective August 1, 1997, 22 Texas Register 6264. The Third Court of Appeals' November 13, 2008 opinion in *Texas Mutual Insurance Company v. Vista Community Medical Center, LLP*, 275 South Western Reporter Third 538, 550 (Texas Appeals – Austin 2008, petition denied) addressed a challenge to the interpretation of 28 Texas Administrative Code §134.401. The Court concluded that "to be eligible for reimbursement under the Stop-Loss Exception, a hospital must demonstrate that the total audited charges exceed \$40,000 and that an admission involved unusually costly and unusually extensive services." Both the requestor and respondent in this case were notified via form letter that the mandate for the decision cited above was issued on January 19, 2011. Each was given the opportunity to supplement their original MDR submission, position or response as applicable. The division received supplemental information as noted in the position summaries above. The supplemental information was shared among the parties as appropriate. The documentation filed by the requestor and respondent to date will be considered in determining whether the admission in dispute is eligible for reimbursement under the stop-loss method of payment. Consistent with the Third Court of Appeals' November 13, 2008 opinion, the division will address whether the total audited charges ***in this case*** exceed \$40,000; whether the admission and disputed services ***in this case*** are unusually extensive; and whether the admission and disputed services ***in this case*** are unusually costly. 28 Texas Administrative Code §134.401(c)(2)(C) states, in pertinent part, that "Independent reimbursement is allowed on a case-by-case basis if the particular case exceeds the stop-loss threshold as described in paragraph (6) of this subsection..." 28 Texas Administrative Code §134.401(c)(6) puts forth the requirements to meet the three factors that will be discussed.

1. 28 Texas Administrative Code §134.401(c)(6)(A)(i) states "...to be eligible for stop-loss payment the total audited charges for a hospital admission must exceed \$40,000, the minimum stop-loss threshold." Furthermore, (A) (v) of that same section states "...Audited charges are those charges which remain after a bill review by the insurance carrier has been performed..." Review of the explanation of benefits issued by the carrier finds that the carrier did not deduct any charges in accordance with §134.401(c)(6)(A)(v); therefore the audited charges equal \$42,722.27. The Division concludes that the total audited charges exceed

\$40,000.

2. In its original position statement, the requestor asserts that "Carrier did not pay claim per TWCC Stop-Loss." 28 Texas Administrative Code §134.401(c)(2)(C) allows for payment under the stop-loss exception on a case-by-case basis only if the particular case exceeds the stop-loss threshold as described in paragraph (6). Paragraph (6)(A)(ii) states that "This stop-loss threshold is established to ensure compensation for unusually extensive services required during an admission." The Third Court of Appeals' November 13, 2008 opinion states that "to be eligible for reimbursement under the Stop-Loss Exception, a hospital must demonstrate that the total audited charges exceed \$40,000 and that an admission involved unusually costly and unusually extensive services." The requestor's original position statement failed to discuss the particulars of the admission in dispute that may constitute unusually extensive services. In its supplemental position statement, the requestor considered the Courts' final judgment. In regards to whether the services were unusually extensive, the Third Court of Appeals' November 13, 2008 opinion concluded that in order to be eligible for reimbursement under the stop-loss exception, a hospital must demonstrate that an admission involved unusually extensive services. The requestor's supplemental position statement asserts, that "The services rendered to [Claimant] were unusually costly and extensive...because: [Claimant] underwent multiples surgeries. [Claimants] experienced postoperative complications." The requestor's position that this admission is unusually extensive due to surgical procedures and complications fails to meet the requirements of §134.401(c)(2)(C) because the requestor failed to demonstrate how the services in dispute were unusually extensive in relation to similar spine surgeries or admissions.

The requestor goes on to state:

The length of stay was outside of the ordinary. When compared to the results of a statistical survey of system-wide data maintained by the Division for hospital inpatient admissions in Texas, [Claimant's] eight (8) day hospital stay... was outside of the ordinary because it was longer than most others and exceeded system norms... The average length of stay for hospital inpatient admissions system-wide in the State of Texas in 2005 was four (4) days. The average length of stay for 2005 admissions with Principle Diagnosis Code (724.5) and Principle Procedure Code (03.93) was one (1) day. [Claimant's] hospital stay was outside of the ordinary (unusual) because the length of stay, eight (8) days, exceeded the average length of stay for inpatient admissions system-wide in the State of Texas.

The Third Court of Appeals' November 13, 2008 opinion states that "...independent reimbursement under the Stop-Loss Exception was meant to apply on a case-by-case basis in relatively few cases." A review of the data reports provided by the requestor finds that although length of stay for the services in dispute exceeded the average length of stay when compared to admissions with the same principal diagnosis and procedure code, the requestor did not demonstrate or explain how merely exceeding the average length of stay would: (1) constitute unusually extensive services; (2) categorize this case among the relatively few cases to which the stop-loss method may apply. The division concludes that the requestor failed to meet the requirements of 28 Texas Administrative Code §134.401(c)(2)(C).

3. 28 Texas Administrative Code §134.401(c)(6) states that "Stop-loss is an independent reimbursement methodology established to ensure fair and reasonable compensation to the hospital for unusually costly services rendered during treatment to an injured worker." The requestor in its supplemental position summary states:

The costs were front-loaded. The cost associated with the hospital's services in this case are front loaded-i.e. the injured employee underwent complicated surgical procedures requiring an investment in skilled professionals and advanced facilities and medical equipment.

The requestor does not list or quantify the costs associated with these resources in relation to the disputed services, nor does the requestor provide documentation to support a reasonable comparison between the resources required for the spinal surgery. Therefore, the requestor fails to demonstrate that the resources used in this particular admission are unusually costly when compared to resources used in other types of surgeries.

The division concludes that the billed charges for the services do not represent the cost of providing those services. The requestor fails to demonstrate that the hospital's resources used in this particular admission are unusually costly.

4. For the reasons stated above the services in dispute are not eligible for the stop-loss method of reimbursement. Consequently, reimbursement shall be calculated pursuant to 28 Texas Administrative Code §134.401(c)(1) titled *Standard Per Diem Amount* and §134.401(c)(4) titled *Additional Reimbursements*. The Division notes that additional reimbursements under §134.401(c)(4) apply only to bills that do not reach the

stop-loss threshold described in subsection (c)(6) of this section.

- Review of the submitted documentation finds that the services provided were surgical; therefore the standard per diem amount of \$1,118.00 per day applies. Division rule at 28 Texas Administrative Code §134.401(c)(3)(ii) states, in pertinent part, that “The applicable Workers' Compensation Standard Per Diem Amount (SPDA) is multiplied by the length of stay (LOS) for admission...” The length of stay was seven days. The surgical per diem rate of \$1,118 multiplied by the length of stay of seven days results in an allowable amount of \$7,826.00.

The division concludes that the total allowable for this admission is \$7,826.00. The insurance carrier paid \$7,826.00. Based upon the documentation submitted, no additional reimbursement can be recommended.

Conclusion

The submitted documentation does not support the reimbursement amount sought by the requestor. The requestor in this case demonstrated that the audited charges exceed \$40,000, but failed to demonstrate that the disputed inpatient hospital admission involved unusually extensive services, and failed to demonstrate that the services in dispute were unusually costly. Consequently, 28 Texas Administrative Code §134.401(c)(1) titled *Standard Per Diem Amount*, and §134.401(c)(4) titled *Additional Reimbursements* are applied and result in no additional reimbursement.

ORDER

Based upon the documentation submitted by the parties and in accordance with the provisions of Texas Labor Code §413.031, the Division has determined that the requestor is entitled to \$0.00 additional reimbursement for the services in dispute.
